I Really Believe that Progress is happening with the design proposals. I think a consensus is about to evolve. -  
Your staff seems to be reacting to suggestions with interest and making the concept seem possible. I hope for a plan that all factions can agree with - soon!

Comments:

In Building a new bridge, DO WHAT YOU CAN TO KEEP AS MANY WORKERS AS IS POSSIBLE ABOVE THE WATER. ALSO - SEE TO IT THAT THE CONTRACTORS WHO ARE ALLOWED TO BID ON THIS PROJECT ARE RESPONSIBLE AND THAT THEY ARE SIGNATORY TO A STATE APPROVED APPRENTICESHIP PROGRAM. KEEP THE QUALITY OF WORK HIGH - REQUIRE YOUR CONTRACTORS TO BE LEGITIMATE AND EXPERIENCED.

Comments:

This is a good technique.  
A little hard to understand  
reasons for the different  
approaches. Advantages/  
disadvantages of options  
would have been useful  
to know, at least from the  
perspective of designers.

I really appreciate this thoughtful process. My one concern is not enough participation by the general public.
