Subject: Joe King phone call

Joe King called and wants to know about the "new bridge on I-5". His number is 206-390-3819. I just left him a message with your name and phone number and said to call you for info. If you don't hear from him this morning, could you please call him again?

He used to live in Clark County. He was a legislator and became Speaker of the House. He headed up the light rail committee in 1995. He was connected with Q-Prime re a park & ride lot that didn't happen re the amphitheater.
