2004 - 2005

"You are Here"

(Columbia River Crossing Project Technical Analysis)

Assemble policy decision and technical information for concepts to be presented during scoping

Compile information re: tolling options that should be presented in DEIS

Analyze/determine administrative & regulatory issues affecting project

Determine financial options that should be explored in DEIS

Other pre-DEIS actions:

- Reaching consensus on travel demand forecasting assumptions for DEIS
- Reaching agreement on funding assumptions to include in DEIS
- Developing and refining organizational structures
- Identifying and resolving procedural issues
- Identifying and resolving intergovernmental issues

Being addressed through Bi-State Rail Forum

Being addressed by MPOs

2005

Scoping - "Most Promising"

Answers the Questions

- Is what's being studied reasonable?
- Is the number of alternatives reasonable?
- Is the range of alternatives reasonable?

Rigorous analysis of alternatives to inform project decision/decision-makers

2005 - 2007

DEIS

Reasonable promising alternatives for DEIS
