I love that I can bike to work and don't have to commute by car. I like that I can take my bike on bus or max and not have to use gas (expensive and dangerous) as an individual to get around. Please do not build a bridge for cars only! That will only increase car use

and set Portland back as just another non-innovative, less environmentally friendly city
(like the rest of major U.S. cities)

Think, think, think about it.
