Comments:

after reading about the proposals in the paper and hearing two presentations I am hopeful that the committee will support a new bridge bridge and not keep the current one.

with regard to light rail vs. bus I am more mixed. I favor light rail for the convenience of hooking up to the Portland system but I don't commute to Portland so it won't be something I will use regularly.

with regard to the terminus it needs to be one of the further north sites. The downtown wouldn't be as good as users would still sit in I-5 traffic trying to get to them which would be a disincentive.

1. WHICH BRIDGE OPTION DO YOU SUPPORT? (please check any that you would support)

- Replace the existing bridges
- Supplement the existing bridges with a new structure
- Do nothing—make no changes to the existing bridges
- No opinion

- over -

2. WHAT HIGH CAPACITY TRANSIT MODE DO YOU SUPPORT? (please check any that you would support)

- Bus rapid transit between Vancouver and Portland
- Add Light rail between Vancouver and Portland
- Do not add high capacity transit between Vancouver and Portland
