MAY 30 2008

Columbia River Crossing

I read of the recent proposal by
 Carlotta Colletta ^{Robert Liberty,} & Carl Hosticka.

The proposed 12 lane bridge would
 take care of local needs and the
 needs of Interstate Traffic.

If local politicians won't support
 the need of interstate traffic, then
 the Federal Government should route
 Interstate 5 over the route of
 Interstate 205 and let local cities
 & Metro take over full maintenance
 costs of the present Interstate 5
 through Portland and Vancouver.
