Regarding the I-5 bridge plan. The answer is simple. There are many people who live in Washington, but work in Oregon. Oregon collects taxes from the Washington workers. However, Oregon has never allowed any of the Washingtonians to vote or decide how this money is spent. Isn't this taxation without representation? Oregon should take this money collected from the Washington workers and build the bridge. At least some of the money taken over the years by Oregon would then benefit the people being taxed!!

Thank you
