Comments:

I believe that the option of keeping the existing bridges to use as in-town travel (Downtown - Santzen Beach) has been overlooked OR at least has not been fully evaluated. These two bridges are being looked at as "Seismically unfit" at a time when little to no attention is being payed to all of the other structures in our area that "could" be classified as the same. It is unfortunate that all of the attention is focussed on the IS bridges. Of the 5 options that are on the table, none of them make sense to me. The Supplemental plans will be easily laid to rest when people realize that if the Old bridges are retained for Northbound or Southbound, one side will end up getting the short end of the stick everytime there is a bridge lift. I think it is time to pull back on the reins and re-evaluate where we really stand. And not to make discissions that we will regret.

1. WHICH BRIDGE OPTION DO YOU SUPPORT? (please check any that you would support)

- Replace the existing bridges
- Supplement the existing bridges with a new structure
- Do nothing—make no changes to the existing bridges
- No opinion

2. WHAT HIGH CAPACITY TRANSIT MODE DO YOU SUPPORT? (please check any that you would support)

- Bus rapid transit between Vancouver and Portland
- Light rail between Vancouver and Portland
- Do not add high capacity transit between Vancouver and Portland
- No opinion

3. WOULD YOU SUPPORT BRINGING BUS RAPID TRANSIT OR LIGHT RAIL TO THE FOLLOWING LOCATIONS? (please check any that you would support)
