Comments:

More than any thing else, we need light rail to come across the river. That pretty much dictates a new bridge as well. I am concerned about making the bridge too wide, 12 lanes seems like overkill. What about additional pollution and carbon emissions? I am concerned about that, I don't want to make it easier to commute by car from Clark County to employment in Oregon. Commuting by car should be discouraged. Build us a new bridge with increased capacity but you don't need to double capacity.

### 1. WHICH BRIDGE OPTION DO YOU SUPPORT? (please check any that you would support)

- Replace the existing bridges
- Supplement the existing bridges with a new structure
- Do nothing—make no changes to the existing bridges
- No opinion

## 2. WHAT HIGH CAPACITY TRANSIT MODE DO YOU SUPPORT? (please check any that you would support)

- Bus rapid transit between Vancouver and Portland
- Light rail between Vancouver and Portland
- Do not add high capacity transit between Vancouver and Portland
- No opinion
