I own a building on the corner of 22nd and Broadway and work as a psychologist, along with five other doctors in this building. I think that light rail going in one direction would be fine, but rapid transit going both North and South would not be a fair deal to the businesses on Broadway. It would be fair to businesses on both Broadway and Main to split the rapid transit between the two streets.

Thank you very much.

Stephen G. Zahm, Ph.D.
