Address: 3710 NW Wisteria Way

Corvallis, OR 97330

Comments:

In the last two years, the urgency of the climate crisis has become stunningly clear. We need to take this into consideration with EVERY new project we undertake, especially large public transportation and highway projects. This project needs to be redesigned to expand the capacity and ease of public transportation in the project area, and NOT expand the capacity of single car and truck transport. I would support any necessary repairs to the existing bridge and safety improvements, along with the addition of a separate bridge EXCLUSIVELY for trains, buses, bicycles, and/or pedestrians. NO ADDITIONAL LANES should be added for cars and trucks.
