Comments:

I'm very pleased to see the inclusion of the light rail alternative. I hope you will conduct feasibility studies to see if there can be an express route that transports commuters

between Vancouver and Portland during peak hours. The expected commute time in 2030 using light rail is not a huge incentive to take light rail. Making it faster and easier to use might improve ridership. If it is within the scope and purpose of the DEIS it would be great to see some additional discussion of the possibility of express light rail routes.
