Realtor comments were solicited by the Clark County Association of Realtors. As a real estate broker who works in Clark county and as a homeowner in Skamania whose husband works in downtown Portland, it really makes sense to our household to do what is necessary to promote good access between Portland and Vancouver. In the most general of terms, Portland needs Vancouver for more affordable housing and Vancouver needs Portland for it's business life.

It is always overwhelming to initially pay for such a project. But it needs to be done for the good of both communities.

Sincerely,
Leann Collins
