portland, or 97203

Comments:

Hi,

My main reason for commenting is the design of the bridge. If a new bridge is approved, I feel all efforts should be made to make it an architecturally and aesthetically beautiful

bridge. I live in St. John's and everyone that passes over the St. John's bridge appreciates the beauty of its design.

As the main link between two great states, I feel the bridge should be a thing of beauty that enhances the beauty of the natural environment. Bridges like I-205 are the exact opposite of what should be sought in a design. It is a mere concrete monstrosity with no visual interest.

Thank you for your time and consideration.

Sincerely,

Greg Quartarolo
