Subject: columbia river crossing project...please build it!!
Date: Thursday, June 26, 2008 12:20:42 PM
Attachments:

The Columbia River Crossing Project is a smart transportation and quality of life decision that will benefit both sides of the river as our region grows. As costly as it may be now, it won't do any good to wait. We need to be pioneers for the future instead of waiting for more of a crisis to occur...

Thanks so much for hearing my thoughts.
