I have lived in Vancouver for almost 20 years and have spent 10 of those years working in Downtown Vancouver. I have watched traffic congestion get worse and I have seen *many* economic opportunities pass by the City of Vancouver simply because of our lack of appeal for the downtown area. Our connection to Portland has a huge impact and by breaking the bottleneck that is the I-5 bridge, we will open the way for further positive business relations. I feel this project is long overdue and will greatly benefit the economic health and the general desire for people to stay and thrive in our lovely little city!
