Subject: I-5 Bridge and Pearson Airport
Date: Friday, June 27, 2008 6:02:06 AM
Attachments:

As a long time pilot using Pearson airport I would like to urge that any reconstruction of the I-5 bridge crossing the Columbia river strongly consider removing the towers on the northern side to reduce the departure climb gradient required when departing the airport to the west. It would seem a fixed span high enough for ship passing could be designed further to the south.
