Comments:

My floating home in the Jantzen Beach Moorage will be directly impacted by a new bridge and light rail line. Little has been done to address the needs of our co-owned community, both the loss of value of my home personally, and the loss of value to the JBHI corporation. The use of eminent domain in a floating home community is unprecedented, which therefore requires considerable more thought and research than a "taking" in a regular residential neighborhood on land. More people will be affected than just the few nearest the bridge, like me. I want to see a very thorough analysis on this new, and more complex, "takings" issue.

My choice for alternatives is 3 - where the light rail is quickly aligned with the N. Portland Harbor bridge and only takes out the end row. BUT... those in adjacent rows should also be moved and compensated for loss of home - 3 - value, quality of life, and noise. I have an idea; help us add on to our moorage

1. WHICH BRIDGE OPTION DO YOU SUPPORT? (please check any that you would support)

- Replace the existing bridges
- Supplement the existing bridges with a new structure
- Do nothing—make no changes to the existing bridges
- No opinion

down stream so we can move our houses and keep our mutually owned infrastructure in tact. Thank you.

2. WHAT HIGH CAPACITY TRANSIT MODE DO YOU SUPPORT? (please check any that you would support)

- Bus rapid transit between Vancouver and Portland
- Add Light rail between Vancouver and Portland
- Do not add high capacity transit between Vancouver and Portland
- No opinion

3. WOULD YOU SUPPORT BRINGING BUS RAPID TRANSIT OR LIGHT RAIL TO THE FOLLOWING LOCATIONS? (please check any that you would support)
