Portland, OR 97204

Comments:
The DEIS has failed to adequately account for impacts to property owners and businesses along the shoreline adjacent to the Expo Center. Current plans, any of the plans, indicate

the development would create significant obstacles to commercial traffic in the area. This is of particular concern to my client, Ross Island Sand & Gravel Co., which I have expressed in oral testimony at one of the earlier hearings last year. The lack of detail in the EIS for these traffic impacts and the oral responses at the hearing--which consistently stated that the level of current design does not enable the proponents to provide an idea of traffic impacts--make it impossible for the public to analyze the impacts. This does not satisfy the "hard look" requirements of NEPA.
