Hi, Joe -

Your request does fall under the public records request requirements. I have forwarded your message to the appropriate CRC staff and they'll respond.

Jay

Subject: Request for Information and Documents: Traffic Analyses, Tolling, Financing

Jay:

I would like to request copies of all documents and reports relating to forecasts of traffic volumes, traffic speeds, and levels of congestion related to the CRC.

I would also like to request copies of all documents and reports related to tolling and financing of the project.

If the response to this request is particularly voluminous, i.e. more than 25 different documents, could you please provide me with a list of such documents and I will identify which ones I am most interested in. I prefer to receive these documents electronically if possible. If there is a charge for copying documents that are not available electronically, please let me know.

Please consider this a public records request. If you require that such requests be made in writing and delivered by U.S. mail, please provide me with the appropriate contact name and address and I will reduce this request to writing.

If you have any questions, please feel free to call (503-213-4443) or email.

Many thanks,

Joe Cortright
