Comments:

I live at Smith Tower. I  would not support any option that would lead to the destruction of our Building. I know it's off the table "for now". Please keep it that way

I am also concerned about how ~~high~~ construction would impact living down here, I still drive.

Light Rail is easier for handicapped people to navigate -

We should build for the future, not just to fix a problem today, even if means more temporary difficulties -

- Replace the existing bridges  
 Supplement the existing bridges with a new structure  
 Do nothing—make no changes to the existing bridges
