Comments:

I agree w/ the metro suggestion to have a toll for the current bridge along w/ a

supplemental structure to carry light rail.

I found the comments from the Clark County JC president shocking and incoherent. Light rail would increase traffic and accidents? But no mention of increased access to the school? Hmm, it's worrisome he's the president of an institution of higher learning.

I also can't understand why downtown Vancouver business owners wouldn't want light rail. Don't they want customers to come to their business?
