Comments:

A toll fee applied to cross for work or pleasure is the worst idea coming out of someone's head is like a sales tax on seniors, low income commuters and students attending schools

across the Columbia to Oregon or Oregon to Washington, it would prevent a common exchange or slow the exchange process. If the work project had been started and completed ten to twelve years ago when it was first recognized as a solution we would have saved millions in construction costs and recovered ample funds thru the fuel tax for other improvements and delaying now will have the same effect, pick the best plan and sell the bonds to get the work done.
