Address: 705 w 29th st

vancouver, WA 98660

Comments:

Light rail is the best choice. No need to go all the way up main 15th far enough. Between

Wa and Or it is MOST important that the goal of less traffic is achieved. This is not only by putting in billions for rails and concreat but educating people to ride. People with money enjoy their freedom and their car. Besides the Green thinkers alot of lightrail riders scare away those who may ride instead of drive. This is not your work commuter time or crowd. At night myself I have no problem but many do. This will work great but not without education and safety. Thanks
