Here's an idea of mine, my family
and friends.

MAY 16 2008

Columbia River Crossing

The Interstate I-5 Bridge over the Columbia River. If you plan on spending 2-3 Billion dollars for a New Bridge.

It should be something of a Landmark, a Big Deal, An Awesome Bridge to call its own for Portland / Vancouver.

We should spend Many more Millions and make the New Bridge a Modern, Unique and Beautiful Bridge. Not a concrete bridge like I-205.

Are only the Bridges of late, be the only Gorgeous feats of thier time.

Oregon and Washington shold share the costs equally. They could even subsidize costs with Electronic Tolls that tally # for cars/trucks.

We can all say we would pay extra for a Real nice Beautiful Bridge.

Sincerely, D. WILDE
MILWAUKIE, OR.

(MY FAVORITE CHOICE)

ANY COLOR

USE ONE OLD BRIDGES FOOTINGS & LEGS
FOR MODERN ARCHED CONCRETE TRAIN
BRIDGE ~~AD~~NEXT TO NEW BRIDGE
RESEMBLING OR SIMILAR TO NEW BRIDGE
TYING IT IN.
OR DESIGN RAIL & PED as part of the
structure.
