I strongly support the resolution presented by Metro Councilors Carlotta Collette, Robert Liberty and Carl Hosticka for charging tolls on the current bridge between Portland and Vancouver. The resolution promises immediate (if slight) relief of rush hour congestion.

It would generate funds for undoubtedly necessary upgrades to the current bridge structure, on-ramps and mass transit capacity. And, if followed, would provide information in a straight forward way to decision makers regarding the willingness of the travelling public to pay for new commuting amenities.

Paul Dinu
