Comments:

My job in Portland requires my vehicle. From a commuting standpoint, I will not benefit from light rail. Yet, I am willing to support light rail (and the considerable amount I will apparently be paying in tolls) if the project is guided by the principle of minimal impacts on existing neighborhoods and businesses. The Lincoln terminus concept maximizes impacts, and is opposed by a clear majority of the people living and working in that area. You must respect the neighborhoods and businesses of Vancouver. Keep light rail near the freeway and do not plow up Main street. This will have a negative effect on a functioning and improving area featuring many local businesses. Do not do this to Vancouver. I will continue to support the light rail idea if I feel like you care about the neighborhoods and businesses. If I see evidence to the contrary, my vote is lost.

2. WHAT HIGH CAPACITY TRANSIT MODE DO YOU SUPPORT? (please check any that you would support)

- Bus rapid transit between Vancouver and Portland
