ridgefield, or 99642

Comments:

It is important to get on with replacing the current bridge with a new 12-lane bridge and

rapid transit. We are already behind, as those of us who make this commute already know! The metropolitan area continues to grow and this growth will not abate simply because traffic is heavy. People are going to settle outside the urban core because that is the lifestyle they seek. A toll is not going to decrease traffic--those of us who work in the Portland area have to use this corridor. The same is true for the trucking industry.
