think that's really prudent. I -- I've seen some calls for, like, 11 trillion in investments, which could easily grow to 15 trillion, the way things work out.
```

So, I think -- I think just following a prudent course and infrastructure. And that's why I favor what's been called the "Western Arterial."

Thank you.

MR. HEWITT: Thank you.

Pamela Ferguson.

MS. FERGUSON: Thanks for having us here tonight. My name is Pamela Ferguson. I live on Hayden Island; 2270 North Broughton Drive. I've been a resident of Hayden Island for about five I -- I represent the -- I'm the president of the homeowners' association for the manufactured home community on Hayden Island, which is about 440 homes. Over 1,500 homeowners live in the community. Largely, an unrepresented group, usually, in these proceedings. I don't know of anyone here from my community tonight, unfortunately, even though they have been very well educated over the past three The CRC team have made sure that they have years. always attended our homeowners' association meetings, our High Noon meetings. There's been open

Of course, we have had many spirited conversations about the tolls. We're not opposed to tolls, as long as the residents of Hayden Island don't have to pay them. We figure we're right in the middle of everything. Why do we have to pay? But we're amenable; we'll have more discussion of that.

I'm in support of -- my community is largely in support of a replacement bridge with light rail. And, of course, we're also in support of our Hayden Island plan; another team of people that've done great work on Hayden Island. And -- and we ask you to consider the option for the good of Hayden Island community. Thank you.

MR. HEWITT: Thank you.
