To Whom It May Concern:

In regards to the Columbia River Crossing I have 2 important issues, the first is that we do indeed need to either supplement the current bridge for vehicular traffic, or build a new one and the second is that the public **MUST** be made aware of the cost of a light rail line addition to this crossing to downtown Vancouver, as well as the cost to take light rail throughout western Clark County. When I say costs, I mean financial costs, safety costs, criminal costs, accidental costs, annual upkeep costs.

I Get it Done!
