Have attended public meetings in regard to the bridge for about 15 yrs. Had been on the verge of quitting. However there seems to be a renewed interest & good meetings of discussion on bridge & Hayden Island. This is my first meeting looking at maps & board of explanation after many years of looking at them & were not easy to look at & understand them. How represent them here were so knowledgeable & had easy to talk with too. Thank you so much!

1. WHICH BRIDGE OPTION DO YOU SUPPORT? (please check any that you would support)

P-0160-002

- Replace the existing bridges
- Supplement the existing bridges with a new structure
- Do nothing—make no changes to the existing bridges

Thank you for taking the time to submit your comments on the I-5 CRC DEIS.

P-0160-002

Preferences for specific alternatives or options, as expressed in comments received before and after the issuance of the DEIS, were shared with local sponsor agencies to inform decision making. Following the close of the 60-day DEIS public comment period in July 2008, the CRC project's six local sponsor agencies selected a replacement I-5 bridge with light rail to Clark College as the project's Locally Preferred Alternative (LPA). These sponsor agencies, which include the Portland City Council, Vancouver City Council, TriMet Board, C-TRAN Board, Metro Council, RTC Board, considered the DEIS analysis, public comment, and a recommendation from the CRC Task Force when voting on the LPA.

With the LPA, new bridges will replace the existing Interstate Bridges to carry I-5 traffic, light rail, pedestrians and bicyclists across the Columbia River. Light rail will extend from the Expo Center MAX Station in Portland to a station and park and ride at Clark College in Vancouver. Pedestrians and bicyclists would travel along a wider and safer path than exists today.

For a more detailed description of highway, transit, and bicycle and pedestrian improvements associated with the LPA, see Chapter 2 of the FEIS.

2. WHAT HIGH CAPACITY TRANSIT MODE DO YOU SUPPORT? (please check any that you would support)

P-0160-002 Bus rapid transit between Vancouver and Portland

Add Light rail between Vancouver and Portland

Do not add high capacity transit between Vancouver and Portland

No opinion
