Comments:

P-0164-001 completely support the Columbia River Crossing. I think that light rail going to Washington will open doors for a lot of people. It would only make sense to have TriMet branch up to the Couv (Vancouver). Tons of people live in Vancouver and work in Portland and vice versa. ~~TriMet~~ TriMet is the most environmentally friendly way to travel/get around. the more people see good change the ~~more~~ more people do good change. I can't wait to ride!

1. WHICH BRIDGE OPTION DO YOU SUPPORT? (please check any that you would support)

- P-0164-002** Replace the existing bridges
 Supplement the existing bridges with a new structure
 Do nothing—make no changes to the existing bridges

Preferences for specific alternatives or options, as expressed in comments received before and after the issuance of the DEIS, were shared with local sponsor agencies to inform decision making. Following the close of the 60-day DEIS public comment period in July 2008, the CRC project's six local sponsor agencies selected a replacement I-5 bridge with light rail to Clark College as the project's Locally Preferred Alternative (LPA). These sponsor agencies, which include the Portland City Council, Vancouver City Council, TriMet Board, C-TRAN Board, Metro Council, RTC Board, considered the DEIS analysis, public comment, and a recommendation from the CRC Task Force when voting on the LPA.

With the LPA, new bridges will replace the existing Interstate Bridges to carry I-5 traffic, light rail, pedestrians and bicyclists across the Columbia River. Light rail will extend from the Expo Center MAX Station in Portland to a station and park and ride at Clark College in Vancouver. Pedestrians and bicyclists would travel along a wider and safer path than exists today.

For a more detailed description of highway, transit, and bicycle and pedestrian improvements associated with the LPA, see Chapter 2 of the FEIS.
