Columbia River CROSSING Comment Form

Thank you for taking the time to give us your thoughts and help shape the future of this project.

DATE: 10/13/2011

COMMENTS:

I would like 1 lane on each side available for local electric vehicles. The distance between Downtown VanLouver - Delta Park - Marine Drive are close enough to allow slower electric vehicles to travel the distance. However those vehicles typically travel at 25-40mph tops. It would be great for consumers & the environment to allow these road legal vehicles to travel across the bridge.

PLACE COMPLETED FORM IN BOX OR TO A STAFF MEMBER. It may be mailed.

P-003-001

Interstate facilities do not allow neighborhood electric vehicles (NEVs). However, the new local multimodal bridge between Hayden Island and the Oregon mainland will be designed for a lower speed, and will likely be used by NEVs. Because the project supports the use of electric vehicles, when parking management plans are developed for the park and ride facilities, the provision of electric charging stations will be evaluated.
