Hi Michael,

Below is the CRC Final EIS notification summary.

Public notification of availability of the Final EIS included the following:

- Letter sent to all property owners whose property was identified in the Final EIS as being potentially impacted by the project
- Postcard or email sent to all who commented on the Draft EIS
- Postcard sent to all mailing addresses within the Bridge Influence Area and on the project mailing list
- Email sent to all people on the project eUpdate list
- Email sent to all Oregon and Washington state legislators and federal representatives
- Press release sent to local media, and briefed media reporters at event
- Project website announcement
- Legal notices in the Columbian, Oregonian, Federal Register and SEPA
- Four drop-in information sessions held within the project area

The Final EIS was distributed to agencies, tribes, libraries and community centers. A copy of the Executive Summary (which included a DVD of the complete Final EIS and technical reports) was distributed to current and former members of project advisory groups, community organizations and anyone who requested a copy. The Final EIS was also available online at the project website, [www.ColumbiaRiverCrossing.org](http://www.ColumbiaRiverCrossing.org).

Let me know if you would like anything added or amended.

Thanks!

Dennis

**Subject:** Help!

Hello,

Below is text from a different FEIS project – could someone from EI edit this text so it reflects our project? I need to drop it into the ROD which is due at midnight tonight... If you can't, I understand (we're all busy I'm sure), but please let me know either way.

Public notification of availability of the Final EIS included the following:

- Tribal and agency briefings about the Final EIS
- Project Web site announcement
- Press release to local media along with a media briefing event
- Legal notices in Seattle Times, Federal Register and SEPA Register

The Final EIS was distributed to agencies, tribes, and libraries, and a copy of the Executive Summary (which includes a DVD of the complete Final EIS and technical reports) was distributed to members of the public who commented on the Draft EIS. The Final EIS was also available online at the project Web site, <http://www.wsdot.wa.gov/projects/viaduct>.
