Serial Letter No. 13

RE: Painting of steel components

Gentlemen:

This letter documents the conversation last week between Vernon Uy (American Construction Co.) and Keith Daly (WSDOT) regarding the requirement to paint all steel components on equipment WSDOT will take delivery of as detailed on Contract Plan Sheet ND4.

Due to the limited time frame to complete the on-site work it was agreed that the requirement to paint all steel components on the equipment WSDOT will take delivery of does not need to be painted at the time of fabrication. Once American Construction Co. has completed the on-site work they will complete preparation and painting of all steel components per the Standard Specifications at no additional cost to the State.

If there are any questions or if you had a different understanding of this conversation, please contact this office at (360) 816-2208.

Sincerely,

Frank Green, P.E.  
CRC Structures Engineering Manager
