Subject: Contract 8078 - RFI 001: Surveying Question

Hi Frank.

Some surveying-related questions pertaining to locating of temporary test piles:

- What is required tolerance for these temporary, test piles? Do these piles have to be placed per Section 6-05.3(11)A?
- If these piles have to be accurately located, we will require WSDOT to provide additional survey information - such as a couple more survey points (with coordinates) by the river bank.

Please advise. Thanks.
