Subject: re: Contract 8078 - Compressor Equipment Submittal

Hi Keith.

After reading the page 2 notes, we will go ahead and use the submitted 1600-CFM compressors (Ingersoll Rand HP1600WCU Tier 3).

If there is presence of oil film or sheen on the water during operation of bubble rings, we will stop work immediately and these compressors will be removed/replaced.

Call me if you have questions. Thanks.

Kevin/Vernon,

Attached is the Compressor Equipment Submittal stamped "Not Approved" as equipment is not oil free. Please see notes on page 2 that allows use of submitted compressors with conditions. If you have any questions please let me know.

Thanks,

Keith Daly
Assistant Business Manager
