Comment:

I support the Pacific Interchange Option because:

- No more backups between University Village to Montlake. Finally, a solution to the “Montlake mess”! Pacific Interchange dramatically improves local traffic circulation on arterials in Seattle. Compared with the other options for SR 520, Pacific Interchange does not differ substantially in the number of vehicles coming into any Seattle neighborhoods.
- A continuous green belt reconnecting the playfield on Portage Bay to the Arboretum - a great new park for the whole city!
- A direct transit connection between express bus service on SR 520 (which will quadruple to 47,000+ riders/day by 2030) and the planned Sound Transit light rail station at UW, which will be the most heavily used stop outside downtown Seattle (about 21,000 boardings/day.)
- A direct bicycle link from the Burke-Gilman trail to the Eastside.
