I-0758-001 | Thank you for posting the plan online so interested folks can read and comment!

I-0758-002 | Because I live in Montlake, I have followed the issue rather closely and am very happy that the community club and other orgs, plus private citizens, have come up with the Better Bridge as opposed to the original WSDOT plan. As a result of listening and reading about both sides, I strongly support the Pacific Interchange Plan as opposed to the Base-Six plan. My reasons: the PI is much more environmentally sound, creates a new park, enhances public transit issues, etc.

Please keep us in the loop about this issue. Thank you!
