**Comment:**

The 6-lane alternative should NOT be built. The last thing we want to do is make it easier for more cars to come into the city. Eastsiders should get used to taking mass transit; after all, even the rich do in cities like New York, Boston, DC. It is time to move away from such a heavy reliance on the auto culture, and from the symbiosis between construction companies and unions on the one side and public officials on the other.

Only consider the 4-lane alternative and more mass transit.

Philip L. Bereano
