Comment:

The four lane alternative for the new 520 bridge is the only acceptable one for my wife and myself. We cannot afford the noise, air pollution, money, environmental damage, and new traffic any other alternative will bring. We should be instituting a toll right now for 520 to start paying for it as the project is several years off. This will tell us if drivers want to use the bridge and start now to raise the funds for it. thanks. S. Kedelsky, J. Zegree, Seattle, WA.
