**Comment:**

I listened to the Mayor of Bogata, Columbia speak on the radio recently about his efforts to provide sensible transportation solutions (particularly bus transportation) in his city. He was articulate and clear.

His major point was that it was impossible to support public transportation solutions AND increased capacity for private cars. It seemed so obvious, yet we continue to dither, wanting it all ways.

I concur with the statement in favor of the four-lane SR520 alternative recently provided by stakeholder communities, including the Eastlake Community Council President Carsten Stinn. I live in Eastlake. The arguments against the six-lane solution presented by the No Expansion of SR520 Citizens Coalition deserve your careful consideration and support.

Thank You.
