**Comment:**

I would like to voice my strong support to the Pacific Interchange option. After reviewing the report and seeing all what has been written and said over the last few years, it seems to me that the only viable option is the Pacific Interchange option. It improves traffic circulation in and around the University for both the east and west sides of the lake and is the only solution that has a comprehensive plan for a direct transit links and bicyclists. More lanes along the same area as the old bridge is not the answer. The Pacific Interchange option puts the needs of all of King County, the University, and the neighborhoods in balance. I urge your support.
