Comment Summary:

Pacific Street Interchange Option

Response:

See Section 1.2 of the 2006 Draft EIS Comment Response Report.

I-1272-001

The Pacific Interchange Option for SR520 is by far the smartest,most forward-thinking plan.

- 1.The planned light rail station at the UW would have direct connections to buses and trains.
- 2.It provides a direct bicycle connection to the East side via a new Union Bay bridge.
- 3.It eliminates the horrendous backups on Montlake Blvd from University Village.

There is much, well-deserved support for this thoroughly thought-out plan. I look forward to its completion.
