Re: SR 520 DEIS Comments on Behalf of Seattle Yacht Club

Dear Mr. Krueger:

C-026-001 We are writing to comment on the Draft Environmental Impact Statement for the SR520 project. On behalf of the Seattle Yacht Club, we want to express concern about the potential disruption of access to the dock and moorage facilities. As you no doubt know, the Seattle Yacht Club facilities in Montlake are used by hundreds of members, guests and, at certain times, the public. The Club specifically requests that the Final Environmental Impact Statement address ways to mitigate the probable significant adverse impacts of all of the project alternatives on the Club's facilities.

We would be very happy to work with you and your staff to address these matters. We would be happy to give you a tour of the facilities and provide you with any other information you may find useful as you proceed with the Final Environmental Impact Statement.

Very truly yours,

John W. Hempelmann
