*Bridge is an unfortunate necessity but  
the below are my comments*

I-0402-001: *Noise - where reduction efforts are not  
effective, as for uphill locations on  
Clyde Hill, significant tax reductions  
be made to properties downgraded  
by noise.*

I-0402-002: *Tolls - Remove after cost of new  
construction, when bonds are redeemed.  
Keeping a toll of any type after  
amortization of construction is allowing*

*Continued on back*

I-0402-001

I-0402-002a present and future participants and there like to have access to funds for other items not involved with the present work. Long range funds have a disfunction of being used in way not contemplated today (ie SS fund).

I-0402-003. An lids provide a path remote to from road for coastal ducks and wildf wildfife which will be affected. Only cut off from swamps at Jenner Bay by the sound wall.

I-0402-003
