September 21, 2006 Draft EIS Public Hearings

L-020-001

As the representative of the City of Bothell, I like
to receive information regarding potential Mitigation
of the proposed project on the SR-522 Corridor.
It is well documented that both improvement
as well as tolling of SR-520 would have adverse
impacts including traffic diversion and noise
pollution on the SR-522. There must be a clear
plan to address this issue as well as commitment
of funds to take care of appropriate Mitigation.
