Enter your comment below. Please be as specific as possible.

Thank you for all of the extensive preparation work you have done. I think we need to get busy and begin doing something rather than continue to debate issues. The 6 lane alternative seems to me to be the best solution to accommodate the traffic using 520. The Pacific Street Interchange also seems to me to be reasonable and a logical aid to traffic flow. Also, the U.W. would seem to be a less "combative" organization with whom to negotiate possible solutions rather than neighborhood groups. And since the University is a public institution displacing some of the structures related to the campus seems to me to be the most reasonable, leaving the neighborhoods mostly in tact. Again, thank you for your hard work!

How did you hear about this open house?
