I-017-001 |

Could southbound exit to 520 be changed to a right lane configuration rather than left lane. This would cause a smoother transition rather than all the lane changing that goes on now . kathleen Wagner

I-017-001

Improvements on I-5 are not included as part of the SR 520, I-5 to Medina: Bridge Replacement and HOV project. However, to help improve the connection between SR 520 and I-5, the SR 520, I-5 to Medina project includes a new reversible HOV ramp that will connect to the existing I-5 reversible express lanes south of SR 520. The project will not preclude future modifications to the SR 520/I-5 interchange.
