

Alaskan Way Viaduct and Seawall Replacement Project

Draft EIS Comment Form

Please use this form to give us comments on the Draft Environmental Impact Statement (Draft EIS) for the Alaskan Way Viaduct and Seawall Replacement Project. The comments you make will become part of the public record for this project. Your thoughts will help decision makers develop a preferred alternative. Responses to your comments will be provided in the Final EIS.

Contact Information: At a minimum, please provide your name and Zip Code. If you would like to be added to the project mailing list, please fill out the rest of the contact information and check the box below.

Name: Suzanne M Burke

Organization/Membership Affiliation (optional): _____

Address: 3401 Evanston Pl

City: Seattle State: WA Zip: 98103

E-mail: _____

☐ Check here if you would like to be added to the project mailing list. Simon

| ☐ Overall Project | ☐ Tunnel Alternative | ☐ Construction Impacts and Mitigation |
| ☐ All of the Alternatives | ☐ Bypass Tunnel Alternative | ☐ Other |
| ☒ Rebuild Alternative | ☐ Surface Alternative | |
| ☐ Aerial Alternative | ☐ Seawall | |

What are your comments about the project?

I-099-001

Rebuild working on the two most fractured sections ASAP — long term replace one section at a time. We need to get going, funding is tight people are at risk if we wait any longer. Also need to keep trucks flowing!

(Please use additional paper if you need further comment space)

I-099-001

FHWA, WSDOT, and the City of Seattle appreciate receiving your comments on the Rebuild Alternative. After studying several retrofitting concepts, the lead agencies found that rebuilding the viaduct would not be a cost-effective, long-term solution that adequately addresses the risks to public safety and the weakened state of the viaduct. Elements of the Rebuild and Aerial Alternatives were incorporated into the Elevated Structure Alternative, which was analyzed in the 2006 Supplemental Draft EIS and the Final EIS. Because the project has evolved since comments were submitted in 2004, please refer to the Final EIS for current information.
